FTS Logistics is a dynamic services company with diversified services offered to our valued clients.

Mr. AMIR ALI TEJANI founder of our group started transportation business in 1961, with name & style of M/s AMIR ALI J.TEJANI & CO.

Due to the diversified need of the services we introduced a sister concern with the name of M/s FAISAL TRAILER SERVICE which owns a large number of vehicles and equipment to fulfill the prevailing demand of the logistics need of the country.

Voyage continues with our humble contribution as pioneer Bonded Transport Company and now we serve our valued clients even better with the title and spirit of FTS Logistics. Now we offer variety of services which include Rental of Equipment with same zeal and zest.

With our vast experience and trusted name in handling all day to day needs of logistics throughout Pakistan. Whether, it is small job or big moves our Professional expertise is tested in this field throughout Pakistan. in our over 45 years experience we have set some standards, which are being followed, in this field. Our previous business volume is clear sign of our professional abilities.

Everyone at FTS Logistics knows not only that precision is important but also why (because precision is what the customer pays for), and also knows exactly what the components of precision are.

Our vision is very clear and our services are professionally committed hence we are making good profit along with trusted name in logistics industry of Pakistan.

## FTS's Quality Policy

FTS is a customer driven and safety conscious organization. It strives to maximize customer satisfaction by ensuring total reliability in timely delivery of products in their original form. FTS conduct operations in a manner so as to avoid all hazards to health, safety and environment.

FTS's quality policy is reinforced in essence during operational activities by various steps and actions, few of which are listed below:

- All vehicles are equipped with Safety Devices like "Drive Right" to monitor speed, reverse horns, revolving lights, seat belts, fire extinguishers and first aid boxes.
- Regular maintenance of all vehicles, inspections and testing including Magnetic Particle inspection (MPI) and internal audits are carried out at FTS's in-house workshop.
- Mandatory use of PPE for all operational and technical staff.
- Training of personnel on a routine basis, i.e., in house as well as by our clients and external HSE consultants.
- To Ensure quality service, FTS arranges third party certifications for:
  - Operators and riggers for Crane Operational Activities.
  - Drivers of cranes, trailers and pickups in Defensive Driving.
  - Supervisors and Field Managers for Operations.
  - Management and Field Staff for lifting Operations.
  - Vehicles including Cranes, Trailers and Pickups.
- Third party certification of all FTS manpower and equipment is being carried out on a regular basis through the following organization of international repute:
  - Moody International (Private Limited)

## Health, Safety & Environment Policy

FTS's HSE policy is fully in line with the international practices & standard and encompasses the following:

- Elimination of risk through safe practices and protected working conditions
- Observance of safety regulations at all times in all operations
- Assurance to prevent damage to equipment, persons and environment To ensure the implementation of this policy in its true sense, every employee at FTS's has been empowered to stop any act that he thinks is unsafe or hazardous to health, safety and environment.

## Route Survey

At FTS transportations assignments are preceded by a route survey. Specialized survey teams perform detailed route surveys, by identifying road problems and evaluating risks. Challenges are met by constructing special notifications, roads, bypasses, underpasses and diversions to transport the cargo safety and securely.

## Personal Protective Equipment

Supervisor's personnel on FTS installation must wear and use the following appropriate personal protective equipment. These equipment(s) must be in perfect working order and un usable equipment must be replaced as per policy:

# Rig Moves & Support

**Increase rig utilization with expert scheduling, management, Maintenance and materials support**

Land rigs are an expensive asset, supporting your onshore drilling Operations. And they are only valuable when in operation. At FTS, We support your oil exploration, drilling and pumping operations Through rig move management services designed to increase rig Utilization (string days) and reduce non productive time while Ensuring HSSE compliance and standard practices.

## Projects Handling

**Project Equipment Handling, Scheduling, Management**

One of the Top Five project and heavy-lift providers in the Pakistan. With our proven system of single-point control, we handle all projects from beginning to end. We coordinate the flow of materials, handle restrictions in difficult or remote areas, manage site operations, provide flexible options and stage supply lines to meet exacting deadlines.

A photograph showing four hands of different skin tones holding a white rectangular card. The card is held against a black background that has been torn away from a white surface, creating a jagged, torn-paper effect around the edges of the card. The word 'Mission' is written in a large, black, cursive font at the top of the card, and the word 'Statement' is written in the same font at the bottom. In the center of the card, there is a block of blue text.

Mission

As your trusted FTS Logistics Transport Specialist, we find ourselves as a TEAM to always be your " FIRST CHOICE " For service and solutions, for your every special transport need, through continues improvement, As we do our share in preserving planet earth for future generations.
